ABOUT

I'm a passionate MERN Stack Developer currently pursuing a Bachelor's in Computer Science at the University of Peshawar. I have hands-on experience building full-stack web applications using React.js, Tailwind CSS, Node.js, Express.js, MongoDB. I enjoy solving real-world problems and continuously learning modern tools to improve my craft. Currently seeking a remote or onsite internship or junior developer role where I can apply my MERN stack skills and grow in a collaborative team.

SKILLS

Frontend: React.js, Tailwind CSS, Redux Toolkit

Backend: Node.js, Express.js

Databases: MongoDB

Tools & Platforms: Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Self-employed (April 1 – June 1)

- During these two months, I gained invaluable experience and during this two months I have created Complaint Management System and other project

NovaDev Studios Innovative Digital Solution (June 20 – August 1)

- I worked remotely from June 20 to August 1, during which I developed an e-commerce website for a T-shirt business. This project allowed me to gain hands-on experience in building and managing an online store

Fluxxion (June 14 – August 14)

I worked as an intern at Fluxxion from June 14 to August 14. During this internship, I created three projects that enhanced my practical knowledge and technical skills. This experience helped me apply my learning in real-world scenarios and improve my problem-solving abilities.

EDUCATION

Bachelor in Computer Science (Ongoing) – University of Peshawar (Expected Graduation: 2027)

FSc Pre-Engineering – Government College Peshawar, 2023

PROJECTS

Complaint Management System

Web platform for students to submit complaints with role-based dashboards for HOD and Principal. Includes status updates and admin access.

Built with React, Tailwind CSS, Node.js, Express, and MongoDB

Designed for ease of use and efficient complaint resolution
