### ABOUT ME

I'm a passionate MERN Stack Developer currently pursuing a Bachelor's in Computer Science from the University of Peshawar. I have hands-on experience building full-stack web applications using React.js, Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB. I enjoy solving real-world problems and continuously learning modern tools to improve my craft. Currently seeking a remote or onsite junior developer role where I can apply my MERN stack skills and grow in a collaborative team.

### EXPERIENCE

#### Full Stack Developer Intern

TargLabs

📅 (August — Present) 📍 Remote

Full Stack Developer intern

Currently working as a Full Stack Developer intern at TargLabs, gaining hands-on experience in building modern web applications and collaborating with a professional development team

#### Full stack Developer Intern

Fluxxion (Remote)

📅 June 14 — August 14 📍 Remote

I worked as an intern at Fluxxion from June 14 to August 14. During this internship, I created three projects that enhanced my practical knowledge and technical skills. This experience helped me apply my learning in real-world scenarios and improve my problem solving abilities

#### Full stack Developer

NovaDev Studios Innovative Digital Solution

📅 June 20—August 1 📍 Remote

Remote Work

I worked remotely from June 20 to August 1, during which I developed an e-commerce website for a T-shirt business. This project allowed me to gain hands-on experience in building and managing an online store

#### Self-employed

Self-employed

📅 April 1 — June 1)

Freelance Projects

During these two months, I gained invaluable experience and created a Complaint Management System and other projects.

GitHub

### PROJECTS

#### Ibn Sahra Travels

##### Tourism Web application

- Comprehensive tourism booking web application where users can explore and book travel packages and destinations
- Integrated payment gateway for secure transactions
- User-friendly interface for browsing and booking travel experiences
- Real-time availability and booking management

**live link:** <https://www.toursite.site/>

**github link:** [https://github.com/smabdullah958/Toursite\\_App](https://github.com/smabdullah958/Toursite_App)

#### PDF Summary Generator

- AI-powered web application that allows users to upload PDF documents and generate concise summaries
- Extracts text from PDFs and processes it using AI for accurate summarization
- Supports different summary formats (paragraph / bullet points)
- Clean and responsive UI built with Next.js and Tailwind CSS
- Deployed on Vercel for fast and reliable access

**Live Link:** <https://pdf-summary-generator.vercel.app/>

**GitHub Link:** [https://github.com/smabdullah958/PDF\\_Summary](https://github.com/smabdullah958/PDF_Summary)

#### E-Commerce Website

##### E-commerce website for a T-shirt business

- Full-featured role-based eCommerce app with dashboards for both users and admins
- User Dashboard: Browse products, manage cart, place orders, track status
- Admin Dashboard: Add/edit/delete products, manage orders, view sales analytics
- GitHub link:** [https://github.com/smabdullah958/Ecommerce\\_Web site](https://github.com/smabdullah958/Ecommerce_Web site)
