ABOUT

I'm a passionate MERN Stack Developer currently pursuing a Bachelor's in Computer Science at the University of Peshawar. I have hands-on experience building full-stack web applications using React.js, Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB. I enjoy solving real-world problems and continuously learning modern tools to improve my craft. Currently seeking a remote or onsite junior developer role where I can apply my MERN stack skills and grow in a collaborative team.

EDUCATION

Bachelor in Computer Science
(Ongoing) - University of Peshawar (Expected Graduation: 2027)

FSc Pre-Engineering - Government College Peshawar, 2023

WORK EXPERIENCE

TargLabs (August — Present)
Currently working as a Full Stack Developer intern at TargLabs, gaining hands-on experience in building modern web applications and collaborating with a professional development team.

Fluxxion (June 14 — August 14)
I worked as an intern at Fluxxion from June 14 to August 14. During this internship, I created three projects that enhanced my practical knowledge and technical skills. This experience helped me apply my learning in real-world scenarios and improve my problem-solving abilities.

NovaDev Studios Innovative Digital Solution (June 20—August 1)
I worked remotely from June 20 to August 1, during which I developed an e-commerce website for a T-shirt business. This project allowed me to gain hands-on experience in building and managing an online store.

Self-employed (April 1 — June 1)
During these two months, I gained invaluable experience and created a Complaint Management System and other projects.

SKILLS

- **Frontend:**
  1. React.js,
  2. Next.js,
  3. Tailwind CSS,
  4. Redux Toolkit
- **Backend:**
  5. Node.js,
  6. Express.js
- **Databases:**
  7. MongoDB
  - **Tools & Platforms:**
  8. GitHub,
  9. Postman

PROJECTS

Ibn Sahra Travels - Tourism Booking Platform
A comprehensive tourism booking web application where users can explore and book travel packages and destinations with flexible booking options.
Key Features:
· Package and destination booking with per-person or private booking options
· Integrated payment gateway for secure transactions
· User-friendly interface for browsing and booking travel experiences
· Real-time availability and booking management

Tech Stack:
Next.js, React.js, Tailwind CSS, Redux Toolkit, Node.js, Express.js, MongoDB
Live:
https://ibnsahratravels.com/

Complaint Management System
Web platform for students to submit complaints with role-based dashboards for HOD and Principal. Includes status updates and admin access.
Features:
· Designed for ease of use and efficient complaint resolution
· Role-based access control

Tech Stack:
React.js, Tailwind CSS, Node.js, Express.js, MongoDB
GitHub:
Frontend:
